FRED'S FLYING ADVENTURE

Fred was a curious and adventurous frog who loved to explore the world around him.

One day, he came across a tiny plane that had crash-landed in the pond.

Fred was fascinated by the flying machine and couldn't resist climbing inside and taking it for a spin. He hopped into the pilot's seat and started fiddling with the controls.

Before he knew it, the plane's engine started to roar and the plane lifted off the water.

Fred flew the plane all around the pond, doing flips and turns and showing off his flying skills. When he landed back on the water, he was grinning from ear to ear. From that day on, Fred was known as the bravest and most daring frog in the pond.

FRED'S FLYING ADVENTURE

1. How does the author describe Fred?

2. Where did Fred find the tiny plane?

3. Why did Fred climb into the plane?

4. How did Fred get the plan's engine to start?

5. What did Fred do with the plane once he starting flying?

6. How did Fred's peers view him after his adventure?
