KITTY CHAOS

Lily was the proud owner of three cats and even though she loved each one of them, she always wanted more.

One day, Lily's wish came true. With a mysterious POOF, her three cats turned into six, then, with another POOF, those six became twelve!

Before she knew it, cats were running all over the place - in the kitchen, in the bathroom, and even in her bed!

Lily was overjoyed, but soon realized there was a problem. The cats were piling up on top of each other! The heap grew taller and taller until Lily was buried inside a giant, furry mountain!

Then, Lily woke up. It was only a dream and she was relieved to see only three cats sleeping at her feet. Lily learned a lesson that day. Too much of a good thing can be bad!

KITTY CHAOS

1. How many cats did Lily start with?

   _____
